Beschreibung

The superyacht that redefines what it means to sail

Some vessels transport. Others transform. The Bilgin "Eternal Spark" belongs firmly in the second category. Built in 2024 by the legendary Turkish shipyard Bilgin Yachts, with naval architecture and exterior design by Unique Yacht Design and interiors by Italian studio Hot Lab, the "Eternal Spark" holds a title as precise as it is revealing: "The Biggest 499GT Yacht Ever Built". At 49.95 metres in length and a total area of 1,120 square metres spread across interior and exterior spaces, this superyacht offers volume comparable to yachts of 75 metres and above. It is not an exaggeration. It is nautical architecture pushed to the absolute limit of its class.

Available for charter in the Balearic Islands, Corsica, Sardinia, the South of France and the Amalfi Coast, the "Eternal Spark" is the choice for those who seek an experience that goes far beyond a yacht charter. It is a week — or as many as you wish — in a world of its own, attended by a crew of 9 wholly committed to making every moment unrepeatable.

Exterior architecture: five spaces for five experiences
On deck, the "Eternal Spark" offers five entirely distinct exterior zones, each with its own character and purpose.

The main deck aft is the first point of contact with the yacht: a generous welcome lounge connected directly to the bathing platform and the beach club — one of the most exceptional spaces on the boat. Equipped with a full entertainment system, bar, day head, shower, ice fountain and full-height sauna, the "Eternal Spark" beach club is a complete spa facility at water level. There is nothing comparable at this length.

The bridge deck houses the interior sky lounge and cinema room, and outside, an al fresco dining area for 14 guests with a convertible lounge — the ideal setting for the most memorable dinners, with the Mediterranean horizon as backdrop.

The sundeck reaches its zenith with the glass-walled jacuzzi for 8 people, designed and positioned to maximise views of the surroundings. Around it, a full lounge with bar and shower, and sunbathing areas where sun and water take centre stage.

At the bow, a convertible lounge area can be configured for relaxed cruising, sunbathing or an intimate gathering with nothing but the waves for company.

Completing the exterior picture, the custom 10-metre aluminium chase boat — built to accommodate 12 guests — allows the "Eternal Spark" team to explore anchorages inaccessible to the main yacht, in full style and comfort.

Interiors: luxury as a philosophy

Stepping aboard the "Eternal Spark" is entering a design universe where every detail has been conceived to impress. The central lobby and staircase — with glass floors, handmade chandeliers and glass-panelled walls — sets the tone immediately. The main saloon is extraordinarily spacious and light-filled, with full-height windows, a separate lounge and dining area for all guests. The sky lounge on the bridge deck functions as a private bar and cinema room with a 92-inch screen and professional surround sound — for the evenings when the sea can wait.

The six cabins of the "Eternal Spark" are in a class of their own. The master suite occupies the main deck with independent lobby access, a super king bed measuring 240 × 220 cm, private lounge, office area and a split en-suite bathroom with his and hers sides, shower and private steam room. The VIP suite and two double cabins provide accommodation for up to 12 guests with the same standard of finish and privacy. The two twin cabins, convertible to doubles, complete the layout with a flexibility that adapts to any group configuration.

All cabins feature private entertainment centres, multimedia systems and flat-screen TVs.

Crew: nine professionals of the highest calibre

The "Eternal Spark" sails with a crew of 9: Captain Stefanos Poutos — a Greek Master Unlimited with over twenty years in luxury yachting and commercial shipping — a first officer, bosun and deckhand; two rotational chefs trained in Michelin-starred restaurants (Midsummer House 2* and Bohemia 1*); a lead steward and two stewardesses. A crew that does not merely look after a boat: it builds experiences. The "Eternal Spark" is also an official RYA-certified water sports centre, with qualified instructors on board.

Water toys: the entire sea at your disposal
The "Eternal Spark" water toy package is unmatched: 2 Sea-Doo Spark jet skis with dedicated dock, 2 Seabob F5 SR, 2 electric Lift eFoils (5'4 cruiser and 5'9 models), 4 Jobe paddleboards, wakeboard, towables, kayaks, full snorkelling gear, children's full-face masks, PFDs and helmets. And, of course, the custom 10-metre aluminium chase boat and the Williams 4.6-metre jet tender. Because on the "Eternal Spark", dropping anchor is not the end of the day. It is just the beginning.

The Balearics and the Western Mediterranean: a yacht built for the finest destinations
From the waters of Ibiza and Formentera — with their impossible coves, dream anchorages and world-class beach clubs — to the untouched coastline of Menorca and the vibrant harbour of Palma de Mallorca. From the limestone cliffs of Bonifacio in Corsica and the turquoise waters of the La Maddalena Archipelago in Sardinia, to the golden light of Antibes, Saint-Tropez and Monaco on the French Riviera. And eastwards, the incomparable Amalfi Coast: Positano, Capri, the Aeolian Islands. The "Eternal Spark" does not have a destination. It has the entire Mediterranean.
