Beschreibung

Classic Schooner “Maby II”, 22 meters, wooden hull, built in 1944 (Palomba Torre del Greco shipyard). In 2024, it received a major mechanical upgrade with a brand-new engine: AGCO POWER engine, model 49 CTIM 4V – 133 kW / 181 HP – certified for recreational use (RCD 2013/53/EU).

The boat, being used for day cruise charters, is subjected to a RINA inspection every 2 years and therefore kept in perfect condition in order to pass this biennial inspection.

At the moment, the seller tends to privilege the sell of the whole owning company, that since 1995, it has successfully offered daily excursions in South East Sardinia and is authorized to operate within a marine protected area—one of the island’s most sought-after tourist destinations.

Business Highlights:

Fully licensed to offer daily boat excursions, including access to a protected marine area.

Established in 1995, with a loyal and returning international and local customer base.

Seasonal operation from May to October.

This is the perfect time to inspect the business, currently in full operation, allowing potential buyers to evaluate the workflow, asset condition, and client flow firsthand.

This is a profitable, fully operational, and turnkey business, with all required licenses, authorizations, and infrastructure in place — ideal for investors or nautical operators looking to step into the Sardinian tourism sector with a reliable and long-standing operation.

The asking price for the full acquisition of the company, including all the vessels described above, as well as the permits and licenses to operate within the protected area, is €490,000.
