Beschreibung

CAP MED BOAT & YACHT CONSULTING presents this 2021 sailing yacht, first owner, purchased new and stored ashore every winter season. With a length of 11.94 m, a beam of 3.99 m and a draft of 2.10 m, she offers an excellent balance between cruising comfort, sailing performance and versatility.

Designed for a cruising and performance sailing program, this yacht features a sought-after layout with 3 cabins, 2 heads and a 10-person capacity. The cabins offer 200 x 140 cm berths, while the interior includes a practical galley with resin worktop, double stainless steel sink, two-burner stove with gimballed oven, 12 V electric refrigerator and generous storage.

The Volvo Penta D2-50 50 hp engine with sail-drive transmission provides reliable and appropriate propulsion for this type of yacht. The 400 L fresh water capacity and 200 L diesel tank offer good autonomy for coastal cruising and longer passages.

The cockpit is well designed, with two large side lockers, two compasses on the helm columns, a waterproof 220 V socket, navigation system and electric windlass. The sail plan includes a battened mainsail with two large reefing bands and sail bag, as well as a furling genoa, making sailing simple, efficient and enjoyable.

Equipped with an up-to-date life raft, tender and 2.6 hp tender engine, this recent sailing yacht is a strong opportunity for an owner looking for a clean, well-kept and versatile yacht ready for cruising or sporty sailing programs.
