Water tank: 320 l
Engine: Volvo 30.0 HP (1 x 22.07 kW) Diesel
Fuel consumption: 4.00 l/h
Max speed: 7.00 knot

The Hanse 385 is the successor of the already successful and legendary 37-foot range.

The 370 series is a piece of fashion success story of Hanse. It was well over 1,000 were ever made! With it began a long, cooperative partnership between Hanse Yachts and most successful design office Judel / Vrolijk & co. Together with the designers Hanse has developed many groundbreaking yacht types which have affected the world market.
The new Hanse 385 is a logical development that builds on the models 445, 495 and 545

She has a higher volume by 20 percent with improved sailing performance. The running deck is free of fittings, the anchor box takes fenders. The large cockpit has comfortable seating positions. There is plenty of room for a dual wheel system (standard) with a broad cross on the berthing platform..

The interior concept is based on the design of the larger Loftstyle Hanse models 545, 445 and 495 Our goal was not only to create more volume or to develop contemporary furniture design, but the intelligent extension of the living space.

Equipment:
Steering:
Steering type: 2 Steering Wheels
Number of rudder blades: 1
