Water tank: 700 l
Engine: 2 x Yanmar 75.0 HP (2 x 55,16 kW) Diesel
Engine Hours: 483.6 and 482.5
Generator Hours: 859.7

This Lagoon 450, built in 2013 and refreshed in 2023, represents a well-maintained and comfortable cruising catamaran positioned in one of the most attractive sailing areas of the Adriatic. With nearly 14 meters of length and a wide, stable platform, it offers generous interior and exterior spaces that make life on board practical and enjoyable. The layout includes four ensuite guest cabins and two additional skipper cabins, providing flexibility for private use or charter operations. The saloon is bright and functional, with large windows and a layout that supports longer stays on board.
The exterior areas are designed for relaxed sailing and easy movement around the vessel. The cockpit provides a sheltered space for dining and socializing, while the flybridge offers excellent visibility and convenient access to sail controls. Forward lounging areas take advantage of the catamaran's beam and create additional space for guests to spread out.
Twin Yanmar engines ensure reliable propulsion and straightforward maneuvering in marinas and tight spaces. The vessel's tank capacities and onboard systems support extended cruising without frequent stops, making it suitable for both coastal exploration and longer passages. The 2023 refresh improved the comfort of the exterior seating areas and contributed to the yacht's overall clean and well-kept appearance.
Currently located near Šibenik, the catamaran is available for immediate inspection. It presents a solid option for buyers seeking a proven multihull with ample living space, dependable performance, and a layout that works well for families, groups, or charter guests. Its condition reflects consistent care and professional maintenance, making it a practical and ready-to-use choice for the upcoming seasons.
