Beschreibung

The 4th generation Leopard Powercat

Building on the success of the most popular powercat of all time (Leopard 51 Powercat), this Leopard 53 Powercat ushers in the 4th generation with a yacht that features all the attributes that made her predecessor successful, while reinventing what a powercat should be. . With the space, stability and efficiency expected of a catamaran, combined with the comfort and luxury of a motor yacht, the new 53PC is built with style without compromising performance.
The best of both worlds

The Leopard 53 Powercat offers a modern interior with the comforts of home, as well as plenty of outdoor entertaining space. Combined with the smart and economic advantages of the catamaran design, it is easy to maintain and operate, and is up to 50% more fuel efficient than its monohull counterparts.

The atmosphere inside is seductive, with cool tones and modern finishes. It is offered in a three or four cabin layout, with the option of separate crew cabins. The three-cabin “Owner” version provides a cozy environment with a large comfortable bed, walk-in closet and double vanity.
The salon offers large panoramic windows, an L-shaped lounge to port and a 2-seater sofa to starboard with the option of adding an inboard navigation station. The flow is seamless, with access to the foredeck through the forward saloon door

The kitchen is equipped with a full-size refrigerator/freezer, Staron® countertops, 4-burner stove, microwave, sink and faucet, and ample storage.

The flybridge provides a well thought-out command post with excellent visibility. Ample seating and a spacious table offer a great place to share with family and friends and enjoy a meal with spectacular views.

Discover the pleasure of sailing, now amplified
