Beschreibung

This Pershing 92 is a high-performance motor yacht built by the prestigious Italian shipyard Pershing and designed by renowned naval architect Fulvio De Simoni. It was repainted in metallic gray in 2024, giving it a modern and sleek look.

Equipped with two MTU engines of 2,638 hp each and Searex surface propulsion, this yacht impresses with its exceptional marine performance.

The main aft deck is connected to the interior saloon by an electric retractable glass door, creating a vast indoor/outdoor living space. On the sundeck, a solarium, a cozy lounge with table, bench seats, sun loungers, and a helm station offer optimal comfort while sailing or at anchor.
The lower deck is cleverly laid out with four cabins, all with en-suite bathrooms, as well as a day toilet. The crew area at the rear includes a dedicated galley, two cabins that can accommodate three crew members, and two bathrooms.
This Pershing 92 combines elegance, power, and comfort, ideal for thrill seekers and luxury lovers at sea.
