Aufteilung - Kabinen	**Gästekabine**

Beschreibung

If you know your Traders you will know that they are well used and extensively travelled as that is what they are designed for. HOWEVER, this super low hours 41+2 example bucks that trends with only 810 hours on her Volvo diesels. As a result, she is in very good order mechanically and cosmetically for a boat that is 34 years old. She has 3 spacious cabins, 2 large WC’s, super size saloon and the deck space is different class. HUGE flybridge, generous side decks that make moving about at sea easy peasy, she is fully equipped for long distance cruising in comfort. The owner has now retired from boating and as such she is very much for sale and open to a sensible offer. Traders are like bank vaults in terms of retaining their value and to find such a low hours example is rare. Afloat here in Torrevieja and available to view at your leisure.
